PERSONAL SUMMARY

I am an excitable but easy-going kiwi, a pompom enthusiast and a fresh front end developer. I carry my unique background in elementary education and fashion design into my mindset for coding: I believe in the potential that a thoughtfully designed & well executed site has to connect and empower all people.

SKILLS

- HTML5, CSS3, Sass
- JavaScript ES6 fundamentals, jQuery & React
- Working with RESTful APIs and Firebase
- Responsive Design
- Website accessibility requirements
- Version control & collaboration using Git and GitHub
- Paired programming and team-based development
- Project scope management, planning & deadlines
- Flexibility, resilience, tenacity & self-driven learning
- Motivation & affirmation of others to achieve success

PROJECTS

LITTLEWINS

[LIVE](#) | [GIT](#)

Solo project using React & Firebase

A mental health / productivity app that tracks & celebrates the little daily accomplishments.

WRITE ON

[LIVE](#) | [GIT](#) | [DEMO](#)

Group client project using React, Sass & Firebase

A focused place for writers or diarists to achieve daily writing goals featuring built in timer, dark mode setting and option to use or contribute a writing prompt.

CURRENTLY LEARNING

As a life-long learner I am always pursuing new knowledge and skills. I am currently focussed on solidifying what I learned in bootcamp by:

- *Reviewing all content from bootcamp notes & exercises.*
- *Taking Wes Bos Java Script courses to brush up on fundamentals.*

WORK HISTORY

TEACHER

New Zealand Ministry of Education, 2008 - 2017

Lead Teacher for Digital Tech Education:

- *Researched latest approaches and resources for digital technology education.*
 - *Planned & delivered school digi-tech curriculum & regular PD workshops for staff, empowering teachers to incorporate digi-tech in the classroom meaningfully.*
- Lead Teacher & teacher rep for launch of school website:
- *Liaised between web design team & teaching staff.*
 - *Led staff PD on how to use website as a vital communication tool between home & school via student, class & team blogs.*
 - *Managed blogs & website content.*

Classroom teacher:

- *Designed people systems & planned a curriculum that empowered others to reach their maximum potential.*
- *Managed & delivered up to 35 unique curriculums at a time according to student needs.*
- *Achieved long term targets by breaking them down into short term steps and planning accordingly.*
- *Maintained open lines of communication between government officials, school leaders, parents & students, walking the line between friend and authority figure.*
